

Terms and Conditions

Juliette Ttofa - Sparkle in the Light - Independent Educational Psychology Services

Schools can buy in my services at an hourly rate. The rate for EP services and training is £75 per hour. The rate for Sandplay Therapy is £50 per hour. These fees are set to be roughly in line with colleagues working in similar fields.

Costs for School Visits (a general guide):

- A 3x hour visit, plus 2 / 3x hours of follow-up analysis and report writing is 5 - 6x hours of time (@£75 per hour) or £375 - £450. This is usually the minimum amount I charge.
- If you require a more complex assessment, including cognition and learning, communication and interaction, sensory and physical, and social, emotional assessments (e.g. for special school placement or complex EHCP request), then I charge 10 - 12x hours of time (@£75 per hour) or £750 - £900.
- For reviews or updates, involving a class observation and consultation only, and where you require a written-up record of the review, it will be 3x hours of time or £225.

NB: A 3 hour visit usually includes a classroom observation, informal / play-based discussion with the child and / or more formal learning assessments (as appropriate), a parent/ carer meeting (this can be a home visit or phone / Skype call if necessary) and teacher consultation.

Training Costs:

Training fees are dependent upon the length of training and number of participants. As a rough guide:

- Twilight training (1.5 – 2 hours) is £300 (including preparation time)
- A Half Day of training is £500 (including preparation time)
- A Full Day of training is £900- £1000 (including preparation time)

Therapy Costs:

- Sandplay Therapy or other therapeutic work such as Cognitive Behavioural Therapy is £50 for a 45 minute session (plus 15 minutes note writing / tidying).

Fees/Invoice Procedure

I would appreciate payment in advance of agreed work where possible, or failing this, monthly payments after the work has been completed and following invoice. Prompt payment is appreciated - thank you 😊
